PROFESSIONAL SUMMARY

Motivated Mechanical Engineering graduate with hands-on exposure to heavy industrial environments through on-site plant attachments. Additionally trained in CNC machinery and additive manufacturing. Skilled in SolidWorks, ANSYS, and MATLAB, with a strong background in advanced materials research. Ready to bring my technical drive, adaptability, and a passionate eagerness to learn to a team that values operational excellence and creativity.

EDUCATION

- **Bachelor of Science in Mechanical Engineering**
  Chittagong University Of Engineering And Technology
  Year of Completion: June, 2025
  CGPA : 3.59 out of 4.00
- **Higher Secondary Certificate (H.S.C)**
  Chittagong Engineering University School & College
  Year of Completion : 2019
  GPA : 5.00 out of 5.00
- **Secondary School Certificate (S.S.C)**
  Chittagong Engineering University School & College
  Year of Completion : 2017
  GPA : 5.00 out of 5.00

TRAININGS AND INTERNSHIPS

- **Industrial Attachment at 4H Dyeing & Printing Limited.**
  I acquired real-world exposure to mechanical operations and maintenance, gaining an understanding of workflow, safety practices, and operational procedures in heavy industry. This experience also deepened my knowledge of energy generation, control systems, and industrial machinery.
- **Industrial Training at Abul Khair Steel (AKS).**
  I gained insight into large-scale steel manufacturing processes and the role of mechanical systems and automation in steel production. Additionally, I observed quality control procedures, materials handling, and mechanical equipment maintenance.
- **CNC Programming and 3D Printing Organized by CUET IICT under the ICT division of Bangladesh.**
  I gained hands-on experience with CNC machine operations and coding, along with foundational knowledge of additive manufacturing using 3D printing. These trainings helped me develop practical skills in digital fabrication and precision engineering.

SOFTWARE SKILLS

- **Design & Simulation:** SolidWorks, AutoCAD, ANSYS, MATLAB, CFD Simulation.
- **Programming :** C Programming, Fortran.
- **Manufacturing :** CNC/G Coding, 3D Printing.
- **Productivity Tools:** Microsoft Office (Word, Excel, PowerPoint), Gimp.

CERTIFICATIONS

- CNC Programming and 3D Printing Organized by CUET IICT under the ICT division of Bangladesh.
- Industrial Attachment at Four H Dyeing and Printing Ltd.
- CUET Athletic Club.
- Bangladesh Chemical Society.

LEADERSHIPS AND EXTRACURRICULARS

- **Office Secretary, CUET Sports Club.**
  Coordinated university-level sports activities, managed event logistics, and promoted student participation. Demonstrated leadership, time management, and teamwork in organizing campus- wide athletic events.
- **Organizer, Mechanical Football League 2025.**
  Oversaw planning, scheduling, and execution of the inter-departmental football tournament within the Mechanical Engineering Department. Ensured smooth event flow through effective coordination and communication.
- **Founding Member, CEUSC-CUET Forum (CCF).**
  Contributed to the establishment of a student forum aimed at academic support, peer collaboration, and institutional representation. Played a key role in organizing seminars and knowledge-sharing sessions.
- **Participant, Chemistry Olympiad 2017 & 2018**
  Participated in the preliminary round of the 9th Bangladesh Chemistry Olympiad, a nationwide academic competition organized by the bangladesh chemical society. Demonstrated strong analytical problem solving skills by competing among top students at the regional level.

AWARDS

- Champion in Mechanical Football Tournament. 2023 & 2025
- Finalist in Intra-University Football League. 2024 & 2025
- Runners Up in Inter University Football Tournament. 2024
- Champion in Annual Sports Cricket Tournament at College. 2019
- Man Of The Match in Inter Hall Football Tournament. 2024 & 2025
- Finalist in Intra University Volleyball Tournament 2024

PROJECTS

- **A comparative analyses among various woods as a potential piezo-electric material.**
  'I Performed experimental analysis on Balsa, Pine, and Palm wood to compare their voltage generation capability and piezoelectric efficiency for renewable energy applications.'
